	<b>RISPOSTA</b> <p>Pursuant to UE public procurement Directives, we must guarantee equal treatment when addressing a Public Administration as well as a private Company. INAF may decide "to drop" this request, if the supply should come from the "manufacturer" or, it might be, even from a Public Body. A decision will be taken just before the invitation for a tender offer, the (far from now) final stage of this competitive dialogue. At present, you don't need to pay nothing, simply proceed to submit your request for participation: we will send a specific inquiry to the INAF HQ Management about this specific issue. Also concerning the "ANAC contribution", no fee is due in order to send your request.</p>
